Gentlemen:

On October 12, 1978 we informed you that the testing program for environmental testing on certain Continental cable was acceptable provided you justify the five minute test interval.

During a telephone discussion on October 17, 1978, you provided clarification of the acceptance criteria outlined in your September 29, 1978 letter. Based on this clarification we conclude that your testing program is acceptable and that no further response is necessary to our October 12, 1978 letter.

Sincerely,
