Ivan Selin, Chairman
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Chairman Selin:

I have been reading Y.E.A. and found an article about the enriched uranium situation. Being a minority myself of the Spanish Culture, I think that the people of Forest Grove and Center Springs are just victims of a terrible, greedy problem that I feel is environmental racism. These innocent people would be infected with diseases and illnesses. Having these people sick would take lots of money to cure them. Eventually, the diseases will spread, and all of us will be sick and dying. Reading that these people are exposed to 4,000 tons of nuclear waste each year, I was shocked to actually believe that these people could suffer from this deadly powerplant. In writing this letter to you, I beg you to please ask this to stop!

Thank you for
your time

090157

sincerely,

Mimi Diez
