Dear Dr. Boulette:

Subject: Safeguards Inspection 50-293/94-04 (02/10/94)

This letter refers to above subject physical security inspection of Pilgrim Nuclear Power Station by Mr. E. B. King of this office. Our preliminary findings were discussed by Mr. King with Mr. Neal and other members of your staff at the conclusion of the inspection.

This inspection examined the protected area (PA) barriers, intrusion detection systems and access control equipment associated with the construction of the access control center.

The inspector concluded, based on observations and discussions with licensee management, that the inspected aspects of the physical security program were appropriately directed toward protecting public health and safety. No safety concerns or violations of regulatory requirements were identified.

No response to this letter is required. Thank you for your cooperation.

Sincerely,
