Mr. Robert W. Reid, Chief  
Operating Reactors Branch #4  
Division of Operating Reactors  
United States Nuclear Regulatory Commission  
Washington, D.C. 20555

Docket No: 50-112 & 70-1430; License No: R-53 & SNM-1397

Dear Mr. Reid:

For the past several years, my office has served as the point of administrative liaison for inspection and compliance reports and other formal correspondence concerning our nuclear reactor and nuclear material activities under these two licenses. Because of continuing shifts in our organization, it has become appropriate to assign these administrative responsibilities to Dr. Martin C. Jischke, Director of the School of Aerospace, Mechanical and Nuclear Engineering. Dr. Jischke has line responsibility for the academic, physical and budgetary management of the Nuclear Engineering program and is at an appropriate level to best exercise the University's responsibilities for these activities.

Please let us know if you have any problems with this reorganization. If not, please correct your records to reflect this change.

Sincerely,

*Wm. R. Upthegrove*
