Gentlemen:

We have completed our review of your plan entitled, "Callaway Plant Interim Security Plan for the Protection of Special Nuclear Material of Low Strategic Significance," submitted by your letter dated February 9, 1982, and have determined that the plan meets the requirements of 10 CFR 73.67(f) and (g) for the protection of special nuclear material of low strategic significance, provided certain additional measures are incorporated into it.

These additional measures were discussed and agreed to during a conversation between R. Rentschler and C. Rossomondo of the NRC staff, and Bill Bogner and Gary Pendergraft of your staff on August 3, 1982; and during a subsequent conversation between C. Rossomondo and G. Pendergraft on August 4, 1982. Accordingly, we are amending your Interim Security Plan for the Protection of Special Nuclear Material of Low Strategic Significance by adding the conditions as set forth in the enclosure to this letter.

The provisions of the plan identified above and those contained in the enclosure to this letter shall be fully implemented upon receipt of fuel and shall be in effect whenever fresh fuel is stored on site.

It has been determined that the enclosure to this letter contains information of a type specified in 10 CFR 2.790(d). Accordingly, it is deemed to be commercial or financial information within the meaning of 10 CFR 9.5(a)(4) and shall be subject to public disclosure only in accordance with the provisions of 10 CFR 9.12.

Sincerely,

L. J. Evans, Jr., Chief  
Fuel Facility Safeguards  
Licensing Branch  
Division of Safeguards, NMSS
