Gentlemen:

In our letter to you dated September 9, 1981, we transmitted a new Condition 4.3 to Amendment MPP-2 to your License No. SNM-1168. The last sentence of this license condition read as follows:

You are requested to provide revised pages to Part 4 of your Fundamental Nuclear Material Control Plan which will either list those measurement systems which will be monitored with control charts or those measurement systems which will not be monitored using control charts.

Please provide the approximate date when we may expect to receive these revised pages to your plan.
