Dear Mr. Johnston:

Subject: Routine Inspection No. 030-31470/93-001

This letter refers to your January 31, 1994 correspondence, in response to our January 5, 1994 letter.

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

Your response stated that certain individuals did not have NRC approved training and that since you identified this they have been trained by the manufacturer. Because the NRC wants to encourage and support licensee initiative for self identification and correction of problems, the NRC has exercised discretion under the circumstances you described and will refrain from issuing a Notice of Violation as allowed by its Enforcement Policy stated in Section VII, B.(2).

No reply to this letter is required. Thank you for your cooperation in this matter.

Sincerely,
