John Stawer

Kerr-McGee

SUBJECT

Cushing Site license application review.

SUMMARY

Mr. Stawer returned my call from 12/28/92. We discussed several issues related to my review of the Cushing application:

1. MDA for waste analysis - Stawer will call back with number
2. Areas designated as "Radioactive materials areas" not complete - 10 p.c./g @ 0.25 ft³ = posting quantity. Discussed need to expand posting per 10 CFR 20.
3. informed Stawer NRC would send Draft license for their review of conditions.
4. informed Stawer NRC would include condition requiring submission of decommissioning plan in 6-9 mo.
