Mail Stop 5E4  
Washington, D. C. 20555

Dear Mr. Fauver:

As was discussed during our conference call on April 16, 1993, the Oklahoma State Department of Health (OSDH) and Kerr-McGee Corporation (KM) will conduct a public meeting concerning the Remedial Investigation/Feasibility Study (RI/FS) of the acid sludge pits on the former refinery site in Cushing, Oklahoma. We are pleased that you will be able to attend the meeting. The meeting is scheduled for May 18, 1993, at 7:00 p.m. at the Cushing Middle School, 315 N. Little Street, Cushing, OK.

The purpose of this meeting is the announcement of the RI/FS. A second meeting will be held, at a later date, to announce the State's selection of a remedial method, at which point formal public comments will be solicited.

If you have any questions, please call me at (405) 271-7169.

Sincerely,

Rita R. Kottke  
Environmental Specialist
