Re: Docket Nos. 70-712
40-1478

Dear Mr. Fauver:

The attached copy of the Cimarron Facility procedure regarding the packaging and shipping of low-level radioactive waste is provided pursuant to our telephone conversation on November 7, 1991.

As we discussed, the material described in the October 31, 1991 letter to Mr. Bangart from John Stauter of Kerr-McGee will be handled in accordance with the Cimarron procedure, pending the completion of the relicensing of the Cushing site. The procedure specifies that all material is listed on DOE/NRC Form 741 and consigned to the receiver at the Barnwell, South Carolina disposal site.

Sincerely,

ETS:lld
