

UNITED STATES NUCLEAR REGULATORY COMMISSION

DOCKET NO 50-327

TENNESSEE VALLEY AUTHORITY

NOTICE OF ISSUANCE OF AMENDMENT

FACILITY OPERATING LICENSE NO DPR-77

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 24 to Facility Operating License No. DPR-77 issued to Tennessee Valley Authority (licensee) for the Sequoyah Nuclear Plant, Unit 1 (the facility) located in Hamilton County, Tennessee. The amendment changes the license condition related to hydrogen control measures and also changes the Technical Specifications to reflect the installation of a permanent hydrogen mitigation system. The amendment is effective as of its date of issuance.

Issuance of the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

For further details with respect to this action, see (1) Nuclear Regulatory Commission Secretary's Memorandum dated December 23, 1982, (2) Tennessee Valley Authority letter dated September 17 and December 23, 1982, (3) Amendment No. 24 to Facility Operating License No. DPR-77; and (4) the Commission's related Safety Evaluations
