

ENCLOSURE 1

NOTICE OF VIOLATION

South Carolina Electric & Gas  
V. C. Summer Nuclear Plant

Docket No. 50-395  
License No. NPF-12

During an NRC inspection conducted on January 31 - February 4, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," the violation is listed below:

10 CFR 50.54(q) requires that nuclear power reactor licensees follow and maintain in effect Emergency Plans which meet the standards in 10 CFR 50.47(b) and the requirements in Appendix E to 10 CFR Part 50. Technical Specification 6.8.1.e requires, in part, that written procedures shall be established, implemented and maintained covering the Emergency Plan.

Section 8.1.1 of the Emergency Plan states that "Station personnel will be informed of changes in emergency plans and emergency plan procedures at scheduled training sessions. Persons with specific duties during an emergency will receive additional training appropriate to their respective assignments." Emergency Plan Procedure-101 describes position specific training.

Contrary to the above, the licensee failed to train one individual with responsibility for protective action recommendations (PARs), assigned to the emergency response organization as an Offsite Emergency Coordinator (OEC). Training regarding revised protective action recommendations was conducted during December 1993 for program implementation by January 1, 1994.

This is a Severity Level IV Violation (Supplement VIII).

Pursuant to the provisions of 10 CFR 2.201, South Carolina Electric & Gas is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or Demand for
