Reference: D. P. Hall, IPCo letter to J. G. Keppler, NRC, dated  
November 23, 1982

Gentlemen:

This letter confirms the discussion on December 17, 1982, between Mr. D. E. Keating of this office and members of your staff regarding our concurrence for a limited work resumption on Confirmatory Action Letter dated September 1, 1982, (Stop Work Action 019-your reference 2A-2). The scope of this work resumption is limited to inspection and rework of structural steel in the containment, including the exceptions, that is, additions and deletions, described in Baldwin Associates Interoffice memo B BN-1 dated December 15, 1982. It is our understanding that all documentation will be forwarded to the vault, and QC will provide a weekly status of inspection to Illinois Power Company Management. Further, we understand that if it becomes necessary to expand the scope of this work you will notify us before proceeding.

We will gladly discuss any questions you have concerning this limited work resumption.

Sincerely,
