Gentlemen:

This refers to the inspection conducted by Mr. M. S. Kidd of this office on July 31 - September 1, 1978, of activities authorized by NRC License No. NPF-4 and Construction Permit No. CPPR-78 for the North Anna Power Station, Unit 1 and 2 facilities, and to the discussion of our findings held with Mr. W. R. Cartwright and others of your staff periodically during the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

We have examined actions you have taken with regard to previously identified inspection findings. These are discussed in the enclosed inspection report.

One new unresolved item resulted from this inspection and is discussed in the enclosed report. This item will be examined during subsequent inspections.

During the inspection it was found that certain activities under your license appear to be in noncompliance with NRC requirements. This item and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A.
