

February 28, 1994

Docket Nos.: 50-325 and 50-324  
License Nos.: DPR-71 and DPR-62

Carolina Power and Light Company  
ATTN: Mr. R. A. Anderson  
Vice President  
Brunswick Steam Electric Plant  
P. O. Box 10429  
Southport, NC 28461

Gentlemen:

SUBJECT: NOTICE OF VIOLATION  
(NRC INSPECTION REPORT NOS. 50-325/94-02 AND 50-324/94-02)

This refers to the inspection conducted by Richard L. Prevatte of this office on January 5 - February 4, 1994. The inspection included a review of activities authorized for your Brunswick facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel and observation of activities in progress.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). This violation is of concern because procedural inadequacies resulted in a loss of shutdown cooling. Under different circumstances this could have resulted in more serious consequences. Therefore, actions should be taken to ensure that future activities which could affect shutdown cooling are adequately reviewed and controlled.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosures, and any reply will be placed in the NRC Public Document Room.
