

PDR
AESO-1

August 6, 1993

NOTE TO: Alan Roecklein, RES

FROM: Karen Olive, OC

AMENDMENTS TO 10 CFR PARTS 19 AND 20 TO DELETE CONTROLLED AREA,
REVISE THE DEFINITION OF OCCUPATIONAL DOSE, AND TO REVISE CRITERIA
ON WHEN RADIATION PROTECTION MEASURING IS REQUIRED

Per our telecon this morning, the Office of the Controller concurs
in the subject rulemaking package with the following change:

1. The memorandum that will be going from Mr. Beckjord to
Mr. Taylor transmitting the proposed rulemaking should be
revised to reflect the latest budget document. Therefore, the
last sentence of the last paragraph should be revised to read,
"Resources to implement this rulemaking are included in the FY
~~1993-1997 Five Year Plan~~ FY 1994-1998 Internal Program/Budget
Review document, and no additional resources would be required
for its implementation.

I note that this is rulemaking #360 and is included in both the
text and Appendix B to the FY 1994-1998 Internal Program/Budget
review document.
