WM. H. ZIMMER MEMORANDUM R. F. WARNICK TO D. G. EISENHUT
DATED OCTOBER 5, 1982, RECOMMENDATION FOR NOTIFICATION
OF COMMISSION

Enclosed is the draft revision of the Organization (Criterion I) Section of Chapter 17.1, "Quality Assurance Program for the Design and Construction Phase," to the FSAR, submitted to Region III by Cincinnati Gas and Electric (CG&E) on October 15, 1982, following a telephone conversation on October 8, 1982, between Region III, NRR and CG&E personnel. This submittal contains additional information provided to expedite the review and approval of the current CG&E design and construction and preoperational testing organization at Zimmer by the NRC and to update the 1971 PSAR QA Plan.

The proposed significant organizational changes may be material and relevant to the Quality Assurance concerns expressed in petitions now being considered by the Commission.
