Docket No. 50-344
(Control Building Proceeding)

Gentlemen:

Enclosed is a copy of the "Licensee's Proposed Findings of Fact and Conclusions of Law Concerning Interim Operation," dated November 20, 1978.

For the convenience of the Board, the Licensee's proposals are being submitted in the form of an overall draft Initial Decision concerning interim operation. Thus, as may be noted from the Table of Contents, the only additional findings needed for a complete decision are those in Section IV.B. pertaining to consideration of qualification of the safety-related equipment in the Control-Auxiliary-Fuel Building Complex on the basis of the STARDYNE floor response spectra.

Very truly yours,

Maurice Axelrad
