Mr. D. B. Vassallo
Assistant Director for
Light Water Reactors
Division of Project Management
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Vassallo:

In confirmation with the discussion between Mr. Ed Reeves, Unit No. 1 Project Manager for the Joseph M. Farley Nuclear Plant and Dr. W. M. Jackson, Alabama Power Company, on November 22, 1978, we agree to submit the Radiological Effluent Technical Specifications for the Farley Units 1 and 2, for your review on or before April 16, 1979.

It is our plans to develop the Radiological Effluent Technical Specifications for both units concurrently, using the guidance of Revision 1 of the NRC Draft Radiological Effluents Technical Specifications and NUREG-0133 which were forwarded with your letter of November 16, 1978.

If you have any questions, please contact us.

Yours very truly,

F. L. Clayton, Jr.
