SUBJECT: NRC INSPECTION REPORT 030-28681/93-01

Thank you for your letter of February 22, 1994, in response to our letter and Notice of Violation dated January 24, 1994. We have reviewed your reply and find it responsive to the concerns raised in our Notice of Violation. We will review the implementation of your corrective actions during a future inspection to determine that full compliance has been achieved and will be maintained.

Sincerely,

Charles L. Cain

Reply to Notice of Violation, Docket #030-28681, License #15-23181-01

This letter is in response to the above-referenced notice of violation. We were given this violation for a failure to maintain a maximum interval of 6 months between sealed source leak tests. We have corrected this by adopting two designated one-month intervals, June and December, in the calendar year, in which all of our gauges will be leak tested. This corrective action will be begun and documented in June, 1994. We are now in compliance with the six-month, maximum, interval.
