Re: 21-19874-01

Dear Mr. Miller:

Thank you very much for your letter of November 30, 1982 granting the extension we asked for. The clarification that you gave us concerning reporting to Agreement States was also helpful.

At the same time that our next quarterly report is due to you, January 31, 1983 we will also send a report to each Agreement State in which we had a general licensee since the date we obtained our license, January 25, 1982. This report will cover four quarters and be sent with the information just like we report it to you, to each of the addresses given to us. Subsequent reports will cover calendar quarters as required. We therefore report to you that we have a complete plan for compliance, and that we will be in full compliance by January 31, 1983.

We also state that we understand that we must continue this reporting until such time as we are granted an exempt distribution license.

Yours truly,

Glyn A.J. Bindon
President
