NOTE TO: Alan Roecklein, RES

FROM: Karen Olive, RES

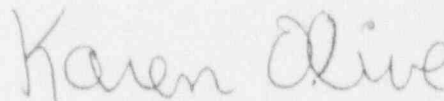

OFFICE REVIEW AND CONCURRENCE ON A PROPOSED RULE - RADIATION PROTECTION REQUIREMENTS; AMENDED DEFINITIONS AND CRITERIA

Per our telecon this morning, the Office of the Controller concurs in the subject rulemaking package with the following change:

1. The memorandum* that will be going from Mr. Beckjord to Mr. Taylor transmitting the proposed rulemaking should be revised to reflect the latest budget document. Therefore, the last sentence of the "Coordination" paragraph should be revised to read, "Resources to ~~implement~~ conduct this rulemaking are included in the ~~FY 1993-1997 Five Year Plan~~ FY 1994-1998 Internal Program/Budget Review document, and no additional resources would be required for its implementation."

I note that this is rulemaking #360 and is included in both the text and Appendix B to the FY 1994-1998 Internal Program/Budget Review document.

*The revised memo to Mr. Taylor was not attached to Mr. Heltemes' memo of September 22, 1993 requesting our comments. The changes I have indicated are based on the original memo received from Mr. Heltemes on July 30, 1993 and they are the same changes that I indicated would need to be made then. Per conversation with Mr. Roecklein, the memo to Mr. Taylor will reflect the above changes.

Karen Olive
