Mr. Ivan Selin
Chairman
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Selin:

I am writing in regard to the Nuclear Assurance Corporation Storage/Transport Dual Purpose Cask (NAC-STC), which has been awaiting licensing by the Nuclear Regulatory Commission (NRC) since July 1990.

I understand that the NAC-STC will be the first U.S.-licensed, dual-purpose cask and, as such, holds great potential for achieving significant progress for the nation's nuclear waste management program. Additionally, I am advised that several potential international users will give serious consideration to this technology once it receives NRC approval. The NAC-STC would enable United States technology to provide a high grade solution to some of the world's spent fuel problems, as well as provide additional jobs here at home.

I would be grateful if you would provide me with a status report on the NAC-STC licensing application and advise me of the anticipated date for the completion of the licensing process. I appreciate your attention to this matter and look forward to hearing from you.

Sincerely,

John Linder
Member of Congress
