Subject: PART 19720 RULEMAKING

Although I just received the Federal Register notice on this package from your secretary just now, as I and Cathy discussed with Alan earlier, we would like the complete package given to us so that we may see the OE, OSP and NRR changes. I ask that the changes be provided either by highlighted version (so we can more easily determine where the changes to the package occurred), or a redline/strikeout version.

It is important we see the entire package; not just a portion of it for office concurrence. As you have asked for office concurrence by Oct 14, please try to get it to us ASAP.

Thanks much, Cyndi
