Bloomington Hospital  
ATTN: Mr. Gene Perry  
Vice President, Professional  
Services  
605 - 625 West Second Street  
Bloomington, IN 47401

License No. 13-10408-02  
License No. SNM-1746

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. W. J. Slawinski and G. M. McCann of this office on December 20 and 21, 1982, of activities authorized by NRC Byproduct Material Licenses No. 13-10408-02 and No. SNM-1746 and to the discussion of our findings with you, Glenn Mather, M.D. and other members of your staff at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

In addition to the above areas, the inspectors examined actions described in your letter dated June 20, 1980, regarding apparent items of noncompliance found during our May 14, 1980 inspection. We have no further questions regarding these matters.

During this inspection, certain of your activities appeared to be in noncompliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

*D. J. Sreniawski*  
D. J. Sreniawski, Chief  
Materials Radiation Protection
