

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555  
December 5, 1978

Docket No. 50-344

Mr. Charles Goodwin, Jr.  
Assistant Vice President  
Portland General Electric Company  
121 SW Salmon Street  
Portland, Oregon 97204

Dear Mr. Goodwin:

Enclosed are copies of the Nuclear Regulatory Commission staff's Safety Evaluations regarding the proximity of the Cove Point LNG Facility to Calvert Cliffs Nuclear Power Plant, dated March 13 and June 13, 1978. Although these evaluations are not directly applicable to any near-sited LNG facility to the Trojan Nuclear Plant, they nevertheless show the type of reactor-related safety considerations involved with such a proposal, and are being sent to you for your information.

Copies are also being sent to the Washington Energy Facility Site Evaluation Council and the Oregon Department of Energy.

We request that you keep us informed of developments in this area in order that any safety concerns related to a close-sited LNG facility to Trojan can be resolved prior to approval of such a project.

Sincerely,

A handwritten signature in cursive script, appearing to read "A. Schwencer".

A. Schwencer, Chief  
Operating Reactors Branch #1  
Division of Operating Reactors
