RE: McGuire Nuclear Station
IE:II:NCM IE Circular 76-05
Docket Nos. 50-369, -370

Dear Mr. O'Reilly:

In my response to Mr. N. C. Moseley dated March 16, 1977, with regard to IE Circular 76-05, it was indicated that Duke would return the subject snubbers to ITT-Grinnell for replacement parts and recalibration. Since that time Duke has purchased a Model PHD-5434-3 suppressor tester from ITT-Grinnell. Duke personnel have been trained and qualified by ITT-Grinnell to operate the suppressor tester and will test and calibrate the snubbers listed in my March 16, 1977 letter prior to their installation at McGuire.

Very truly yours,

William O. Parker, Jr.
