Inspection Summary

Inspection on November 16-17, 1978 (Report No. 50-406/78-1)

Areas Inspected: Routine, unannounced inspection of physical security program. Areas inspected were selected portions of the security plan, security areas, security organization, access control, security systems, security program review and fuel storage. The inspection began during normal work hours and involved 8 inspector-hours on site by one NRC inspector.

Results: Of the seven areas inspected, no items of noncompliance were disclosed.
