Gentlemen:

I am writing in response to your November 1982 monthly report on the West Valley work (letter #12545 R50). I note that the monthly report makes no reference at all in its "Problems" sections under each activity of the very serious problem of the "lost" ultrasonic test data. This problem surfaced only through a reading of the draft report on the work which I recently reviewed.

My comments on the draft report will be forwarded through the Department of Energy as specified in Section 3.2, Task Reports, of the Statement of Work.

Sincerely,

*Original signed by
