DEC 28 1977

Docket Nos. 70-223
50-142

University of California
Los Angeles, California 90024

Attention: Dr. Harold V. Brown
Environmental Health and Safety Officer

Gentlemen:

Subject: NRC Inspection

This refers to the inspection conducted by Messrs. G. Hamada and A. Wieder of this office on December 5 and 6, 1977 of activities authorized under NRC License Nos. SNM-974 and R-71. It also refers to the discussion of our inspection findings with members of your staff at the conclusion of the inspection.

The areas examined during the inspection included your program for controlling and accounting for special nuclear material pursuant to applicable provisions of Part 70, Title 10, Code of Federal Regulations, and specific requirements of NRC License Nos. SNM-974 and R-71. Within these areas, the inspection consisted of selective examinations of procedures and records, interviews with campus personnel and observations by the inspectors.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, documentation of findings of your control and accounting procedures for safeguarding special nuclear materials are exempt from disclosure; therefore, the inspection report will not be placed in the Public Document Room and will receive limited distribution.
