ATTN: Mr. Robert. A. Stratman
Vice President
Nuclear - Perry
P.O. Box 97, S 270
Perry, OH 44081

Dear Mr. Stratman:

We have received the enclosed Federal Emergency Management Agency (FEMA) correspondence dated February 9, 1994 transmitting the findings for the offsite emergency preparedness aspects of the Perry Emergency Preparedness exercise conducted on December 9, 1992.

FEMA identified no new deficiencies in the performance of offsite agencies during the exercise.

Thirteen Areas Requiring Corrective Action (ARCA) were identified during the December 9, 1992 exercise. As appropriate, objectives related to these items should be planned for a scheduled exercise.

We fully recognize that any corrective actions to be implemented may involve parties and political institutions which are not under your direct control. Nonetheless, we would expect the subject of offsite preparedness for the area around the Perry site to be addressed by you as well as others.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed FEMA report will be placed in the NRC Public Document Room.

Sincerely,
"Original signed by Cynthia D. Pederson"

Cynthia D. Pederson, Chief
