- AGENDA -

9:30 Cask Handling Crane

Applicant will describe the new single-failure proof crane for Midland spent fuel to be supplied by the Ederer Company

10:30 Containment Sump Model Testing

The applicant has contracted Pacific Northwest Laboratories to perform full-scale model tests for the Midland containment sump design. Details of the proposed tests will be presented.

1:00 Steam Line Break Analytical Techniques

The applicant is revising analysis of the main steam line break accidents in the FSAR to account for power distortion due to an assumed stuck control rod assembly. The analytical techniques and assumptions to be used for the revised analyses will be discussed.
