Hello -

I have been following the circumstances surrounding the proposed LE 5 Uranium enrichment plant. It has come to my attention that when the DEIS was released in Nov. '93 2 communities - Forest Grove & Lenter Springs, located w/i 1/2 mile from the plant site were not even shown on the maps & diagrams. It is so blatant an "error" that it seems you are not even concerned about the environmental, social & economic impact this might have on these communities.

Because of this deletion, I believe the DEIS is incomplete & that a final EIS must address these concerns.

I would appreciate a response -

Thank you -
marge Machecki
