RE: Portland General Electric Company, et al.
(Trojan Nuclear Plant)
Docket No. 50-344
(Control Building Proceeding)

Gentlemen:

As the Board is aware, a number of the personnel involved in the work associated with preparing and reviewing the topical report with respect to modifications of the Control Building have continued to be engaged in the hearings held from October 23 to November 3, the submission of supporting documentation on November 22 and 24 and the preparation for resumption of hearings on December 11. In addition, the analyses being performed for such report are being refined to take into account the extensive information developed in connection with evaluation of interim operation.

In light of the foregoing, Licensee is not filing the topical report with respect to modifications of the Control Building this week, but expects to do so in early January 1979.

Very truly yours,

Maurice Axelrad
