

Department of Energy

Washington, DC 20585

FEB 24 1994

Mr. Ken Lambert  
U.S. Nuclear Regulatory Commission  
Region 3  
801 Warrenville Road  
Lisle, Illinois 60532-4351

Dear Mr. Lambert:

This is a followup letter to your telephone request for additional documents relating to the former Harshaw Chemical Company facility in Cleveland, Ohio. A list of all available contractual documents and copies of the documents are enclosed.

In past years, certain code words were used in some of the contractual documents. For example, "Product C616" is uranium hexafluoride; "Product 306" is uranium dioxide; and material "WE-61" is uranium tetrafluoride. As we discussed, the Department of Energy has additional documents relating to this facility.

If you have any questions or if I may be of further assistance, please feel free to call me at 301-903-8149.

Sincerely,

W. Alexander Williams, PhD  
Designation and Certification Manager  
Division of Off-Site Programs  
Office of Eastern Area Programs  
Office of Environmental Restoration
