REQUEST FOR ADDITIONAL INFORMATION

Dear Mr. Vassallo:

This is in regard to your letter dated August 2, 1982 which requested additional information for completing your review of our responses to IE Bulletin 80-11, Masonry Design, for the Brunswick Steam Electric Plant Unit Nos. 1 and 2. In our September 22, 1982 letter, we stated that we anticipated submitting the requested information by mid-January, 1983 since it was necessary to complete extensive interfacing and detailed reviews. As this work has progressed, we have determined that an extension of this schedule is needed. We currently anticipate submitting the requested information by early March, 1983.

Please contact us should you have any questions regarding this information.

Yours very truly,
