Re: Texas Utilities Generating Company, et al.
(Comanche Peak Steam Electric Station,
Units 1 and 2), Docket Nos. 50-445 and 50-446

Gentlemen:

Further to my letter to the Board dated September 10, 1982, this will advise that the Public Utilities Commission of Texas has approved the reorganization of the Texas Utilities Company System. Under the reorganization, Dallas Power & Light Company, Texas Electric Service Company, and Texas Power & Light Company will be divisions of Texas Utilities Electric Company. The Public Utilities Commission found the reorganization to be in the public interest. The action by the Commission is a major step in the implementation of plans for the reorganization, which is expected to be in place on about January 1, 1984.

While this matter does not relate to any issue in controversy in this proceeding, nevertheless we thought the Board might be interested in knowing of this action by the Public Utilities Commission.

Sincerely,

Nicholas S. Reynolds
Counsel for Applicants
