License No. SNM-2500
Docket No. 072-00001

Dear Mr. Sherk:

This refers to the special safety inspection conducted by Mr. Ken Lambert of this office and myself on January 31, 1994, of activities authorized by NRC Special Nuclear Material License No. SNM-2500. The results of our findings were discussed with members of your Morris Operations staff at the conclusion of the onsite inspection on January 31, 1994. This inspection also included the review of radioanalytical data on February 14, 1994.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Original signed by G. M. McCann for
