Dear Mr. Engelken:

In the inspection report of Messrs. P. H. Johnson and D. J. Willett of the Trojan Nuclear Plant conducted September 28-October 1, 1982, there was a notation of a commitment by the licensee to provide details of a pending purchase request for 14 additional SCBAs to bring the inventory available for a fire emergency up to current industry standards.

In response to this commitment, we are pleased to report that this order has been placed with one of our local suppliers and 12 of the units will be delivered to the plant this week. The remaining two will follow in about 10 days. With the receipt of these units, we should have no difficulty assuring an adequate supply of SCBAs for fire protection use.

Sincerely,
