

MAR 8 1994

Detroit Edison Company  
ATTN: Mr. Douglas R. Gipson  
Senior Vice President  
Nuclear Generation  
6400 North Dixie Highway  
Newport, MI 48166

License No. SNM-0010(terminated)  
License No. SUB-0477(terminated)

Dear Mr. Gipson:

SUBJECT: INSPECTION OF FORMER ATOMIC ENERGY COMMISSION (AEC) LICENSED SITE  
NRC REPORT NO. 999-90003/94017(DRSS)

This refers to the special inspection conducted by Mr. D. G. Wiedeman of this office on February 22-24, 1994, of your facilities located at 6100 W. Warren, Detroit, Michigan, 710 Jefferson and 6605 W. Jefferson, Trenton, Michigan. These facilities were previously occupied by Atomic Power Development Associates, Inc., a former AEC licensee, Special Nuclear Material License No. SNM-0010 and Source Material License SUB-0477. The results of our preliminary findings were discussed with members of your staff at the conclusion of the inspection on February 24, 1994.

The enclosed copy of our inspection report identifies areas examined during the inspection. The inspection consisted of a selective examination of representative records from the former license file, observations, independent measurements, and interviews with former employees of Atomic Power Development Associates, Inc.

Based upon this inspection, we concluded that licensed material covered under AEC Special Nuclear Material License No. SNM-0010 was properly transferred to Detroit Edison Company, AEC Special Nuclear License No. SNM-0423. AEC Source Material License No. SUB-0477 was superseded on May 10, 1963 upon the issuance of a low-power license for the Fermi, Unit 1 reactor facility, License No. DPR-9. Consequently we have no further questions regarding this matter.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosure to this letter will be placed in the NRC Public Document Room.
