Flexel Indiana, Inc.
ATTN: Ms. Denise Vollmer
Radiation Safety Officer
U.S. Highway 136 West
Covington, IN 47932

License No. 13-24621-01
Docket No. 030-18687

Dear Ms. Vollmer:

This refers to the routine safety inspection conducted by Ms. T. L. Simmons of this office on January 28, and March 14, 1994, of activities authorized by NRC Byproduct Material License No. 13-24621-01, and to the discussion of our findings with you and Mr. H. Schmitt at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

In addition to the above areas, the inspector examined actions taken, regarding a violation found during our October 7, 1987 inspection. We have no further questions regarding these matters.

During this inspection, certain of your activities were found to be in violation of NRC requirements, as specified in the enclosed Notice. A written response is required.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, the enclosure, and your response to this letter will be placed in the NRC Public Document Room.

The response directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
