Gentlemen:

Thank you for your letter of September 15, 1982, in response to our letter dated August 19, 1982. As a result of our review, we find that additional specific information, as discussed with your Mr. K. C. Bowles during a telephone call on October 20, 1982, is required as noted for the following items of nonconformance:

Items B, D, E, G, I - Please describe the steps that have been or will be taken to prevent the recurrence of each nonconformance.

Item C - Please describe the specific changes that will be made to procedure QA-GA-5 and form QC110.

Item F - Please describe the steps that have been or will be taken to prevent recurrence and the specific changes that will be made to the "procedures" in question. In addition, please provide the requested corrective actions with respect to the exempt employees referenced in the nonconformance.

Item H - This nonconformance was written based on the fact that documentation (i.e., audit reports and checklists) furnished to the inspector did not appear to provide the assurance that all applicable areas were being audited. It is requested that additional response on this item be deferred until after further NRC review during the next inspection.
