

January 10, 1983

Gentlemen:

I want to bring you up-to-date on our progress with the Kress Creek survey.

Our crew was in the field from the 8th to the 17th of December, at which time weather and the holiday season closed in. High water and, later, frozen ground slowed the work, so there is still quite a bit to do. We plan to complete the survey in the spring, probably in April or May, and will be in touch with you then. The results should be ready a couple of months after the field work is completed.

If you have any questions, or wish to discuss the survey further, please contact Martin Schumacher (932-2514) or Carl Paperiello (932-2517) of this office. Thank you for your cooperation.

Sincerely,

Original signed by
James G. Keppler
