Subject: SCHEDULE FOR EPR WORKSHOPS

As promised in my message on 11/18, please find attached a copy of the schedule for the workshops for the Enhanced Participatory Rulemaking (EPR) on radiological criteria for decommissioning. We are planning to have Regional involvement in the simulation workshop in early January, when we will conduct a dry-run of the workshop to refine the agenda and the roles of the NRC team involved in the workshops. We will also be coordinating with the regions in each of the five workshops that precede the National workshop in Washington, DC. More on that later.

The facilitator for the workshops will be the Keystone Center, which has extensive experience coordinating and facilitating such workshops. Keystone will be making all of the logistical arrangements for the workshops and will be the principal interface with the workshop participants. Chip Cameron (OGC) is the project manager responsible for Keystone and will attend all of the workshops as the "process" person. Chip is attempting to arrange a visit of Keystone to the NRC in early December to meet with Commission Offices, EDO, DEDS, and the project team.

As of the last meeting of the team on November 18, the team consists of Chip Cameron and Dorothy Michaels (OGC); Don Cool, Bob Meck, and Jim Malero (RES); Mike Weber and Bill Lahs (NMSS); Mindy Landau (SP); Tom Essig (NRR); King Stablein (EDO); and, perhaps, representatives from other offices. Representing NRC at the table in the workshops will be the RES representative (Don Cool) and the NMSS representative (Mike Weber or Bill Lahs). Other offices are welcome to attend and participate in the workshops.

If you have any comments or suggestions, please send them to me via E-mail or give me a call at (301) 504-1298.

Thanks,  
Mike Weber

MONTHLY CONFERENCE CALL

MEDICAL, ACADEMIC, AND COMMERCIAL USE SAFETY BRANCH, NMSS/IMNS/IMAB

DECEMBER 1, 1992

2 p.m. EST

BRIDGE NOS. 492-4323 or 492-4422

HEADQUARTERS:

- Plan and schedule for the workshops on the Enhanced Participatory Rulemaking on Radiological Criteria for Decommissioning (HQ/LLDR - Weber)

*Becky Praeger - Resident*

REGION I: NO ITEMS

REGION II:

REGION III:

- *Permanent Test Farm - Jack Gale - U consultant*  
*Roy Carriacou - acting BC for Gose*  
*Danille Wiedeman - acting SL for cont. sites*

REGION IV:

- Sequoyah Fuels AIT findings (BFisher)

REGION V: NO ITEMS

*RESL - Impact on CSIRF Assessment time?*

*Misadministration*

*Senior matter -*

*(and still detected 3.7 Ci - 192 Ir)*

*high dose rate source (after loader)*

*Indiana, PA - transported back to Nursing home. Patient died the next day.*

*2700 lb of NO<sub>2</sub> - 6 hr exposure - vented over 10-20 minutes*

*3 fishermen  
→ 24 workers at test farm  
→ 8 Sequoyah Fuels employees*

*Diagnosed yellowcake w/ H<sub>2</sub>O<sub>4</sub>*

*B-2*
