Subject: UPCOMING MEETINGS WITH KEYSTONE

At lunch on Friday, December 11, we tentatively agreed to a few dates for upcoming meetings and conferences with the Keystone Center staff on the EPR workshops. They are as follows:

- 12/22/92 at 3:30 -- conference call with Keystone on agenda and issues paper
- 1/4/92 (a.m.) -- hold open for meeting in case 12/22/92 date gets bumped
- 1/8/92 (all day) -- meeting with EPA and Keystone at White Flint to prepare for the simulation workshop, coordinate technical underpinnings for the rulemaking (EPA and NRC activities), and discuss Issues Paper
- 1/11-12/93 (both days) -- simulation workshop; location has not yet been selected by Chip

I know that you will be out on AL during part of this period. Please attend and participate in those meetings/conferences that occur while you are in the office.

Thanks,
Mike
