Mr. Mark Cunningham
RES/PRAB
Mail Stop NLS-372
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Cunningham:

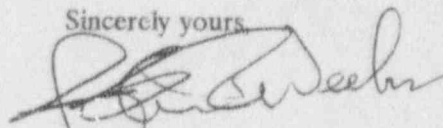

Subject: PRA-ERG First Report

Enclosed is a draft copy of the PRA External Review Group's (ERG) First Report--reviewing the draft predecisional report of the NRC PRA Working Group. Following your instructions and those of Mr. Beckjord, I have made no attempt to summarize the findings or combine them into a consensus report. Also, I have not edited the individual reports of each of the group members; the handwritten corrections, where present, are their own.

I presume the PRA ERG will be asked to comment on the final version (or a later draft) of the Working Group Report; at the February meeting, the members all indicated a willingness to do so.

Please advise me if you wish this draft to be issued as a BNL-NUREG contractor report.

Sincerely yours,

John R. Weeks
Sr. Metallurgist
