(Return to WM, 623-SS)

Dear Ms. Lambert:

This letter is in response to your letter of last October to Mr. Scarano. As indicated in the enclosed list of DES and FES issuances, several statements have been issued since the Final GEIS on Uranium Milling of September, 1980. However, these later statements have all been issued in relation to specific licensing actions and have not addressed changes in regulations or calculational models for estimating radiological impacts.

In response to your second question, the proposed Domenici amendment to the 1978 Uranium Mill Tailings Radiation Control Act was never enacted into law.

Should you have need of any further information on these or other matters, please do not hesitate to contact me or Ms. Kathleen Hamill. Ms. Hamill may be reached at (301) 427-4115.

Sincerely

Original Signed by:
D. E. Martin

Dan E. Martin, Section Leader
