

JAN 13 1983

Docket No. 50-395

South Carolina Electric & Gas Company  
ATTN: Mr. O. W. Dixon, Jr.  
Vice President, Nuclear Operations  
Post Office Box 764  
Columbia, South Carolina 29218

Gentlemen:

We have received a copy of your October 8, 1982 application for Technical Specification changes for the Virgil C. Summer Nuclear Station as set forth in six attachments to the application. A Class III fee of \$4,000 was paid with this application pursuant to 10 CFR 170.22.

The staff of the Office of Nuclear Reactor Regulation (ONRR) have provided a preliminary fee determination for the above application which classifies the changes in Attachments 1, 2 and 6 as each involving a Class III fee of \$4,000 inasmuch as each will involve consideration of a separate safety issue, and those changes in Attachments 3, 4 and 5 as being administrative in nature and requiring a single Class II fee of \$1,200. Therefore, it is requested that your Company remit an additional sum of \$9,200 to complete the fees for your October 8 application. If the ONRR staff's final review of your application reveals that these fees are not correct, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:  
Reba M. Diggs
