Item  
#3

MEMORANDUM FOR: Harold R. Denton, Director  
Office of Nuclear Reactor Regulation

FROM: Lawrence Shao, Acting Director  
Division of Reactor Safety Research  
Office of Nuclear Regulatory Research

Thomas E. Murley, Director  
Division of Safety Technology  
Office of Nuclear Reactor Regulation

SUBJECT: APPROVAL OF TASK ACTION PLAN A-43 "CONTAINMENT  
EMERGENCY SUMP PERFORMANCE"

The attached Task Action Plan for the unresolved safety issue "Containment Emergency Sump Performance" has been jointly reviewed and approved by the Division of Reactor Safety Research, RES, and the Division of Safety Technology, NRR. By memorandum dated July 13, 1979 from the Director of NRR to the Director of RES, the responsibility for carrying out a program to resolve this issue was transferred to RES. The Division of Reactor Safety Research, RES will provide the program management with assistance from NRR as specified in the Action Plan. The completion date for this program (issuing final NUREG) is September 1983.

Lawrence Shao, Acting Director  
Division of Reactor Safety Research  
Office of Nuclear Regulatory Research

Thomas E. Murley, Director  
Division of Safety Technology  
Office of Nuclear Reactor Regulation
