Dear Mr. Dutton:

Subject: Change to Georgia Power Company's QA Organization

In an October 25, 1982, transmittal to Darrell Eisenhut, Georgia Power Company (GPC) informed the NRC of the addition of a new position, "General Manager, Quality Assurance and Radiological Health and Safety," which affects the QA programs of both the Vogtle and Hatch Plants. The October 25 letter indicates that the Manager of QA reports to the new General Manager who in turn reports to the Executive Vice President Power Supply. While the staff finds the change acceptable, we disagree with GPC's statement that the new position elevates the quality assurance organization to a higher level. The new position in actuality adds a level between Quality Assurance and GPC's President.

Region II has been asked to inform NRR of any weakening in the GPC QA program following institution of this change for possible reassessment of acceptability.

Sincerely,
